Fine Art Prints

The photos included here are those on stock and come with at least 10% discount. Additional small discounts for series or when buying various photos are possible. Prices exclude shipment. Shipment costs depend on size and destination. Only actual shipment costs are added. Cost free pickup in Brussels is preferred.

All photos are from open series and will be delivered with certificate of authenticity.

All my photos can be printed on demand (if not protected by other intellectual property or personality rights). I am happy to advice on printing technique, size and framing.

Taking photos for you

Portraits
I can take your portrait either in my studio or any convenient place.

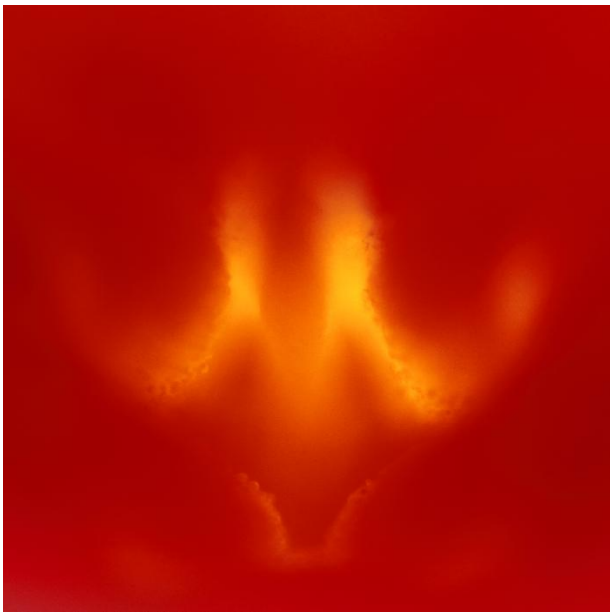

Events
With my professional equipment I can take photos of your event.

Product and still life
In my studio or where convenient I can take photos of products.

Interested? Drop me an email at info@stierle.info.

About me

Bio

I am a German born in Mexico and living in Belgium. I started as photographer for my school and the local newspaper. After a break of some decades, I restarted photography in 2024. Only since this year I am making my photos available to the public and already won first prizes.

My photos have been exhibited in various places across Belgium, in Athens (Greece), Torino and Trieste (Italy), Minneapolis and Oregon (USA), and soon in Zagreb (Croatia), Glasgow (Scotland) and various additional places in Belgium. They also have been selected for numerous international curated and juried virtual exhibitions, including at Allora Photogallery, Aurea Photography Gallery, Black Box Gallery, CollectArtWork, Decagon Gallery, Domio Gallery, No. 35 Gallery, Open Call for Artists, Photography Gallery Carlotta and Solas / Shadow as well as a solo exhibition at No. 35 Gallery. In December 2026 I will participate in the Fine Arts Fair in Leuven, Belgium.

My article “The Louvre in a different light” has been published in the Viewfinders magazine and my photos have been published in various exhibition catalogues and selected for publication in various international print and online art journals. In addition, CollectArtWork has published an artist interview, Open Call for Artists is preparing one.

Artist statement

Photography is my passion. Since I restarted with photography in 2024, I am developing my own style. A common feature of my photos is the focus on the essential with a strong graphic element, either using composition, light and shade, shallow depth of field, motion blur or camera movement. My photos are thus regularly minimalist or abstract, independently of the genre. They include minimalist landscapes with one small person in a wide scenery, super-macro flowers that seem to be a volcano or a photo of a galaxy, or abstract graphical architectural shapes and natural textures.
